

EDUARD BENEDIC

Address: *London*

Telephone: *07480735866*

E-mail: *benediceduard@outlook.com*

I am a Front-End Developer with a genuine passion and appreciation for the web. Coming from a diverse background and changing a few career paths along the way I came to realize that coding is what I truly like and want to do now and future.

One important skill that I developed over time and have to mention from the start is time management. While studying a BSc in Human Nutrition in the middle of my degree (2018) I wanted to change my career but also wouldn't want to lose the time and effort that I put in this degree so far. So... I decided to do both at the same time. Here I am now, after nearly 1 year of experience in web development for Netrix Ltd and an unorthodox degree in Human Nutrition I am ready to take my skills to a whole new level.

Skills

HTML 5

CSS:

- Utility-first CSS frameworks – Tailwindcss
- BEM Model – Less, Sass

Frameworks:

- React
- Vue
- JQuery

Backend: Node.js/Express, MongoDB, GraphQL, REST API

CMS: MODX – currently using it at my workplace

Headless CMS: Strapi, Contentful

Employment Details

| | |
|--|----------------------------|
| Netrix Ltd London Front-End Developer | August 2019 to current |
| Walkers of Whitehall London Bartender | September 2018 – July 2019 |

Responsibilities:

- convert design files into HTML, CSS and JS
- Configure the MODx CMS view
- Updating and creating new pages
- Optimizing and creating HTML email templates
- Creating webpages with an SEO mind

During my development at Netrix I gained rich and meaningful experience. Netrix was my first job in the industry and being a small company I had to deal with a great number of tasks and responsibilities that help me to quickly develop my skills.

Education & Credentials

| | | |
|---------------------------------|--|--------------------------|
| BSc Human Nutrition | University of Westminster London | 2017-2020 |
| BSc Biochemical- Engineering | Babes-Bolyai University Cluj-Napoca | 2015-2017 Uncompleted |

Certifications:

- Learn and Understand NodeJS – [See certification](#)
- JavaScript: Understanding the Weird Parts – [See certification](#)
- Modern Javascript From the Beginning – [See certification](#)
- Node.js Express & MongoDB Dev to Deployment – [See certification](#)
- React – Mastering Test Driven Development – [See certification](#)
- 7 Photoshop Web Design Projects. Learn Web Design By Doing – [See certification](#)
- Master Full-Stack Web Development | Node, SQL, React & More – [See certification](#)
- The Complete Web Developer in 2020: Zero to Mastery - [See certification](#)
- Git a Web Developer Job: Mastering the Modern Workflow – [See certification](#)
- React Front to Back – [See certification](#)
- Bootstrap 4 From Scratch With 5 Projects – [See certification](#)

These courses were supplemented by many other books and resources. I am constantly using MDN to understand complex topics and if necessary looking for books and videos that can help me fully understand a subject.
